## **WELCOME TO VALLIVUE HIGH SCHOOL**

Vallivue High School is organized and administered for the purpose of helping each individual student develop to his or her greatest potential. At this school students are encouraged to become involved in their own education and take advantage of all the opportunities offered. It is our desire that they succeed.

This student agenda book is prepared for you, the parents and students of Vallivue High School, but contains a great deal of information of interest to members of the community. Read this agenda book carefully. It should serve as a guide to the opportunities, established traditions and student regulations. The school policies listed have been approved by the Board of Trustees. However, this is by no means a complete list of procedures. Those of us who are responsible for the operation of this school believe that practicing good judgment, common sense, courtesy and respect for others contributes to a wholesome education environment.

## VALLIVUE HIGH SCHOOL

MOTTO: "Touching the Future"

MISSION STATEMENT: Preparing individuals for success through education

BELIEF STATEMENTS:

The educational stakeholders of Vallivue High School believe that:

- Each student can learn and is a valued individual with unique physical/social/emotional needs and varying learning styles.
- The educational staff should be empowered to create a positive, challenging learning experience in a safe, educational environment.
- The basic values of honesty, self-discipline, unselfishness, respect, and the central importance of work are essential to student success in the post-secondary world.
- Students learn the essential communication skills when they are actively engaged in the learning process.
- Vallivue High School should provide a basic curriculum necessary for students to enter academic, professional/technical post-secondary programs with the skills and work ethic necessary to be confident, contributing life-long learners.
- Technology should be integrated throughout the curriculum and entire educational experience.
- Recognizing cultural diversity enhances our students' educational experience and their ability to integrate into a global work force.
- Staff, students, parents, and patrons share the responsibility for the continuous improvement and success of Vallivue High School.
- Students should be provided with the opportunity to know and understand the responsibilities and privileges of being a free American citizen.

## **PARENT – SCHOOL RELATIONS**

Factors that enrich the school/home relationship:

1. That attendance be regular and punctual.
2. That a student absent from school should not expect a valid excuse to absolve him from the responsibility of making up the work missed.
3. That extra help in a subject, beyond what can be given during the class hour without robbing the group of the teacher's time, should be on the initiative of the student as well as the teacher.
4. That parental concerns be first registered with the classroom teacher so as to provide the school an opportunity to make adjustments as resources will permit.

Factors needing cooperation of parents and school:

1. A demanding class schedule and participation in too many activities to the detriment of the class work are factors which demand constant attention.
2. Both the school and the home should watch the progress of the student on regular grading reports.
3. The parent and the school both want the student to learn to get along with others, assume his/her own responsibilities and develop self-discipline. It should be the common purpose of both parents and school to adjust any attending strain to the development of the student without weakening him/her by absolving him/her of the responsibility for his/her actions.
4. If a boy or girl becomes significantly unhappy in school, the matter should be reported to the counselor by his/her parents.

## **DIRECTORY INFORMATION, STUDENT RECORDS, REHABILITATION ACT (SECTION 504)**

### III. GRADUATION AND COURSE REQUIREMENTS

#### Guidance Services and Special Programs

Vallivue High School provides counseling for students encompassing academics, scheduling, post high school education and training, career plans, and social development/adjustment. If counseling will be for a prolonged period or exceed the typical time frame, a letter of parental consent will be requested. If a student is referred for group counseling from a contracted services agency, parental consent will also be requested. A sample consent form letter will be provided to parents on request.

Because counseling is based on a trusting relationship between counselor and client, the counselor will keep the information shared confidential except in certain situations, in which there is an ethical responsibility to limit confidentiality. In the following circumstances, you will be notified:

1. Any academic or social situation that will curtail normal student progress or success.
2. If the student reveals information about hurting themselves or another person.
3. If your child reveals information about physical/sexual abuse or information about serious criminal activities, the school will contact appropriate authorities.

When the counselor believes that disclosure to the parent would result in a clear and present danger to the health, safety, or welfare of the student, information shall not be disclosed to the parent.

If parents do not want their child to be provided counseling or require that counseling be restricted to specific areas, the school principal should be notified in writing.

The students are provided with other educational services which include speech and hearing therapist, psychologist, special education, special needs and a vocational assessment facilitator. An additional responsibility of the guidance counselor is to help maintain and update student records.

Parents/legal guardians may call the attendance office between the hours of 7:15 a.m. and 3:45 p.m. on each day the student is absent. Written notes excusing absences will also be accepted. Please call within the first three (3) days when the student is absent.

Attendance at school must be regular and punctual. Students are to plan to attend classes every day the classes are scheduled. ***Except in extraordinary cases, a student will not be given credit in a subject if he/she is absent more than six (6) days in a semester.***

**Students arriving late to school MUST check in at the attendance window prior to reporting to class. Tardies will be marked unexcused if the student does not have a note or a phone call to the office from a parent prior to their arrival.**

Students not meeting the attendance requirement may not receive credit even though their grades are passing. However, those students who believe that all or part of their

absences are the result of extraordinary circumstances may request a review of their case.

### **Excused Absences**

There are two types of excused absences for Vallivue High School students. They are:

1. **Exempt absences.** These types of absences DO NOT count toward the six (6) absences allowed each semester. They include the following:

2. **Regular Excused absences.** All other excused absences (including Pre-arranged absences) **WILL** be counted toward the limit of six absences per semester. If extreme situations arise the parent/guardian may request that an absence be declared exempt by the building principal.

Any extenuating circumstances must be pre-approved by the Athletic Director, Principal, Assistant Principal or their designee prior to participation. **Students more than 10 minutes late to a class will be marked absent.**

To clear a student's absence/truancy, please contact the school's attendance office at 454-9255 between the hours of 7:15 a.m. and 3:45 p.m.

**No student may leave the school during school hours without receiving prior parental permission AND signing out at the attendance window.**

**Failure to follow proper procedures when leaving school will result in an unexcused absence/ truancy for the class periods missed.**

ALL unexcused absences/truancies will be counted toward the six (6) day limit each semester. An unexcused absence/truancy is an absence from class without the approval of the parent or school authorities. ALL unexcused absences not cleared with the attendance office within one week will be considered truancies.

The district's truancy office may contact the parent/legal guardian of the student. Repeated truancies may result in the student being declared habitually truant and facing a school board hearing. If a student is found to be habitually truant, the district will notify the local prosecuting attorney who may initiate proceedings against the student's guardians.

The high school Attendance Review Committee will examine the student's records and may approve a waiver of the loss of credit. The records of the student which may be considered will include:

Other criminal actions will be handled case by case at the discretion of administration and SRO. Discipline may vary from the above mentioned consequences at the discretion of the high school administration and SRO.

### **DRUG POLICY**

It is the Idaho Legislature's intent that parental involvement in all aspects of a child's education in Idaho public schools be part of each school district's policy. Drug prevention programs and counseling for students under the custody and care of the public schools are included in this intent.

The Vallivue School District Board of Trustees recognizes that student use of chemical substances, including alcohol, is a serious problem of utmost concern in our society detrimental to a state of well-being and undermines the aim of education, which is to enable individuals to develop to their full potential. The district seeks to ensure the highest standards of learning in the classroom and recognizes that use of chemical substances—including alcohol, tobacco, and controlled substances—creates educational, economic, and legal problems.

It is the intent of this policy to be consistent with federal, state, and municipal statutes and ordinances related to the prohibition of the use, possession, or distribution of tobacco products by student.

These regulations are intended to provide guidance to school personnel responding to Idaho Code 18-1502, 18-1502A, 23-949, etc.

Any violation of the Idaho Code as prescribed for minors with respect to the use of drugs, alcohol, or tobacco during the school year by any student attending school, and/or participating in any school program, function, or activity is prohibited. This includes using, buying, selling, giving, accepting or possessing illegal substances, alcohol, tobacco or drug paraphernalia.

#### **A. VOLUNTARY REQUEST FOR ASSISTANCE**

If a student voluntarily discloses that he/she is using or under the influence of alcohol or controlled substances while on school property, there shall be no disciplinary action, provided that the student is not under the influence or in possession of an illegal/controlled substance at the time help is requested. The student will be granted anonymity and the disclosure will be revealed to faculty only on a "need to know" basis, except as reasonably necessary to protect the health and safety of others. The student will meet with a counselor and/or administrator to discuss options and resources. The district will notify the student's parent, legal guardian or custodian of the disclosure and the availability of counseling for the student.

#### **B. OFFENSE PROCEDURES**

1. Using, possessing, distributing or selling, attempting to possess, being under the influence of illegal drugs or alcohol and/or drug paraphernalia at school or school events may result in an "immediate" suspension out of school for no more than five (5) days. This may be extended to as many as twenty (20) days by the superintendent and Board of Trustees.
2. Parent notification.
3. Police referral
4. Possible referral to Board of Trustees for an expulsion hearing.
5. Possible referral for Drug/Alcohol evaluation prior to readmission (at the parent/guardian's expense).

## **MEDICATIONS**

**ALL** medications, either prescription or over the counter, which students need to use during school or school activities, must be left in the nurse's office. Students may, however, have their medications with them when the nurse's office has on file the parents' and doctors' affirmation that this is necessary. 2. A medication permission form signed by the parent or legal guardian.

## **SEARCH AND SEIZURE**

Warrant-less searches will be conducted upon the basis of reasonable suspicion that the student is concealing something, possession of which is either in violation of the law or school rules. Searches may include, but are not limited to: backpacks, cell phones, and vehicles. The lockers are school property and subject to search without student permission. See Board Policy #542.

## **FREEDOM OF SPEECH, PRESS AND ASSEMBLY**

**Student Rights** – All students possess the constitutional right to peaceably assemble and to petition the government and its representatives for a redress of grievances, subject to reasonable limitation upon the time, place and manner of exercising such right. Persons other than school students, teachers, and the staff may not use school time or premises for verbal or written communication except with the approval of the superintendent or his/her designee.

The card must be presented for student admission, otherwise adult prices will be charged. Students are entitled to a voice in all student body affairs and functions.

Membership in the Student Body Association is encouraged but not required. However, such membership represents so many savings and advantages and provides so many worthwhile activities that students have been nearly one hundred per cent supporters. **Anyone who does not purchase a student body activity card cannot participate in any activity supported by these funds.**

A student must be currently enrolled at Vallivue High School to use a Vallivue High School A.S.B. card for admission to events. The A.S.B. card must be turned in when a student transfers to another school or no longer attends Vallivue High School.

The faculty advisor must be in attendance at and during all meetings and shall retain the right of veto on any decision of the group. The faculty advisor must approve all decisions, notices, expenditures, etc.

All club monies must be turned into the bookkeeping office daily. Each order or purchase must be accompanied by a purchase order obtainable in the bookkeeper's office. A monthly statement of all accounts, receipts, and expenditures will be distributed to each advisor. All student activity funds are audited annually in an approved procedure.

### **STUDENT INJURIES**

Even with the greatest precautions and the closest supervision, accidents can and do happen at school. They are a fact of life and a part of the growing-up process our children go through. Parents need to be aware of this and be prepared for possible medical expenses that may arise should their child be injured at school. **Vallivue School District does not provide medical insurance to automatically pay for medical expenses when students are injured at school. This is the responsibility of the parents or legal guardians.**

The district carries only legal liability insurance. Insurance covering medical expenses arising from an injury may be purchased for students who participate on athletic teams sponsored by the district.

Brochures outlining the coverage and premiums are distributed at registration and are available in the school's main office. Please read them and decide if it is worth your while to take this coverage.

### **EMERGENCY PLAN**

Vallivue High School has a written emergency plan in the unlikely event that students need to be sent home due to an emergency such as an earthquake, fire, severe weather, hostage crisis, etc. If an evacuation is necessary, the Vallivue Middle School may serve as an alternate site.

If students must be sent home, the regular route bus plan will be utilized. Those students driving cars will be released to go home immediately. Information of the emergency closure will be provided by the school district for use by television and radio stations. Student accountability will be maintained.

## VALLIVUE SCHOOL DISTRICT 139 INFORMATION TECHNOLOGY ACCEPTABLE USE AND INTERNET SAFETY ADMINISTRATIVE DIRECTIVE

Vallivue's Information Technology System provides an electronic highway connecting millions of computers around the world as well as each of the computer workstations and peripherals within the district.

Internet access and Internet e-mail are a part of the system. These systems are filtered and monitored and are modified for public school educational use to assure the safety of students and to limit use to educational purpose related to the mission of the district. They may not always provide the same utility and resources as private or business systems.

This district and its administrators do not have complete control of the content of all information that may be accessed on or by the system. Some sources may contain defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or illegal materials. The Vallivue School District does not condone the presence or use of such materials and does not knowingly permit the presence or use of such materials in the school environment.

Parents of students should be aware that such inappropriate materials exist and that users may encounter information on the Internet and other information services that may be perceived as controversial or potentially harmful. Vallivue has installed modern and sophisticated blocking software intended to filter out inappropriate material, but it is impossible to completely control all content. While the district cannot control the Internet and other network sources of information, we will strive to provide students and staff with the understanding and skills needed to use Information Technology Systems in an appropriate manner.

## PRIVILEGES AND RESPONSIBILITIES

- All users of the district's systems are expected to have read all of the then current, Vallivue School District 139 Information Technology Acceptable Use and Internet Safety Policy and Administrative Directive. By using any part of the system, each user signifies understanding and acceptance of all of its terms and conditions. (This or a similar notice will be distributed among staff and will be

posted conspicuously near usual points of use and posted on the Vallivue Website.)

- Below the sixth grade, district acceptable use policies and procedures of the appropriate level will be included in the technology education objectives for each grade. At these grade levels district staff will be directly responsible for all student use and compliance with the Vallivue School District 139 Information Technology Acceptable Use and Internet Safety Policy and Administrative Directive. Elementary School Principals will develop a common statement of rules and/or permissions appropriate to technology use in the elementary schools and submit it to the district administration as an addendum to this document.
- No student above the fifth grade level may use the system without certifying in writing that they have read, or have had read to them and/or explained to them, and do understand the current Vallivue School District 139 Information Technology Acceptable Use and Internet Safety Policy and Administrative Directive. Each student must also have the written permission of a parent or guardian who also certifies that they have read, or have had read to them and/or explained to them, and do understand the current Vallivue School District 139 Information Technology Acceptable Use and Internet Safety Policy Administrative Directive.
- Use of the Information Technology Systems must be for educational purposes only and be consistent with the District's mission.
- The district will monitor and review all access and activities. Access may be denied, revoked, or suspended to specific users at anytime because of activities that violate this Policy or community standards.

## SECURITY

The administrators and support personnel of the Information Technology System are employees of the district and are assigned the responsibility of monitoring activity on the system. All users of the Information Technology System will be given a unique user account and password.
